

## Luxus Model A

### STYLISH, YET PROFESSIONAL

The Luxus Model A Electriscreen was designed ideally for use in multi-purpose applications within the home, professional atmosphere, and more.

### MAXIMIZING PERFORMANCE

The Luxus Model A is available with any of Stewart's front or rear materials. Our exclusive Tab-Guy™ tensioning system ensures a smooth and completely flat screen surface. A matte-black painted border, including 12" of black-drop (unless otherwise specified) provides a perfectly masked image area while absorbing any potential over-scan.

### THE STEWART DIFFERENCE

Stewart Filmscreen is synonymous for superior quality, custom craftsmanship and excellent customer service. Since every Stewart product is handcrafted, custom sizes and configurations are easily accommodated.
